GREETING CARDS

BOXED NOTES

CELEBRATING 25 YEARS!

It's been so long since we changed our name to Earth Sky + Water, LLC (ESW to us), that most of you don't know that our company started as a sole proprietorship called Steven Lewers & Associates (aka SLA), in a third-floor bedroom in our old home in Winchester, Massachusetts.

It's hard to pinpoint the exact start date for SLA. Was it when I opened an account down at the bank and had to come up with a name (bad choice!)? When I wrote that first check? Or sold our first FoldingGuide™ to a lemonade stand vendor at Lighthouse Point on Sanibel Island? Nobody really cares, so let's say we're 25 years old this month. Close enough. Despite the optimistic name, there were no associates back then, just me and a single folding guide inspired by a walk on a Florida beach with my wife and two young sons, who wondered about the shells we gathered that day.

A single product to start, now almost a thousand. One customer on a Florida beach under an umbrella, now more than 3000 in all 50 states. OMG, how did that happen? Well, it's a long story I won't even try to tell here. But the path that opened before us, and which we followed, was created by those we met along the way -- printers, designers, authors, illustrators, and, most importantly, by YOU, our customers.

Right from the start, we've been asking you questions. How are these new products selling? Are they priced correctly? How are you displaying them? How can we improve them? What should we do next?

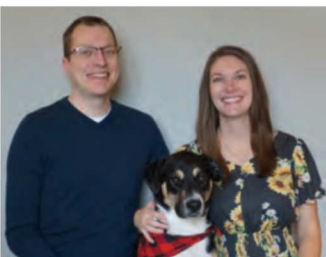

And you've been telling us your stories and sharing your experiences -- rarely as a chorus in perfect harmony, but a chorus nonetheless. As always, we're committed to listening intently, be it at trade shows, in your shops when we find time to visit, and most importantly, on the phone.

The work of running a small business and engaging with the retail world has changed unrecognizably since we started twenty-five years ago. In 1999 the internet was in its infancy, fax was the transmission method of the time, there were no cellphones or QR codes, no Faire. Most of these developments have made things easier for us both, faster and more efficient. But they have also made it harder for us to ask and to listen, and for you to tell and suggest. Nevertheless, we welcome 2025 with a renewed commitment to connection. So here's to being curious, to listening well, and to responding with care and creativity to the challenges we meet along the way.
